

Pro-Cad Plus is a multi-faceted company, owned and operated by Barry Gilbreath.

The roots of the business are in Barry's experience with architects and engineers. He studied architecture at Tarrant County Junior College (Associate Degree in Architectural Technology) and five years pursuing a bachelors in Architectural Design at Texas Tech University. While at Tech, he began working for Architects & Engineers on commercial projects. Since 1980 and carrying through 2001 he pursued design and construction drawings with large firms in Ft. Worth & Dallas, Texas. Since 2001 Barry has focused on support service for developers and individual clients needing construction drawings for commercial and residential market. We can act as a one stop shop for projects large and small. We have affiliations w/ all the necessary engineering and consultants for special projects.

In just 10 years, PRO-CAD + has expanded its services for clients in the design field. They now offer commercial design, construction documents, custom home design, and stock plans. We also provide contract staffing and photocopy reproduction.

We are concerned with the details and design opportunities of your project.

We are a member of the
[Hood County Builders Association.](#)

We are an associate member of
